

Product Information

Concept

An On-Road SUV tyre designed to provide a high-level of riding comfort, handling & stability, wet performance & long wear life.

Features

- High level of handling & stability
18% improvement
- Better wet braking performance
5% improvement
- Long wear life
16% improvement

The values mentioned above are based on comparison of Grandtrek PT3 with Grandtrek PT2.

High level of handling & stability

Technology to Improve Handling & Stability

Adoption of pattern optimization and true circle profile improves Handling & Stability performance

1 New Pattern

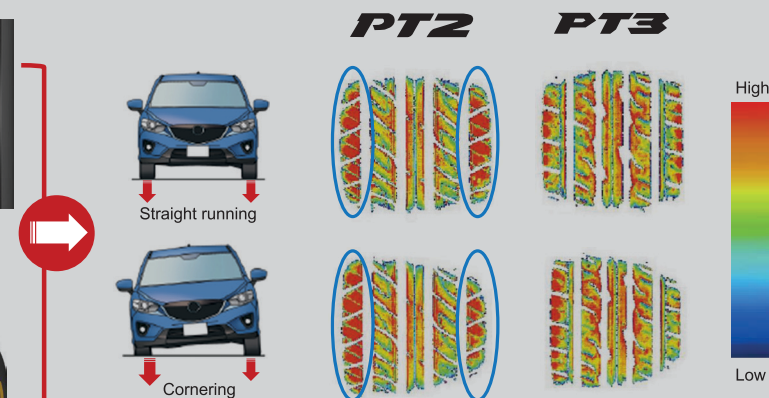

Equal rib with distribution at centre area gives uniform contact.

2 True Circle Profile

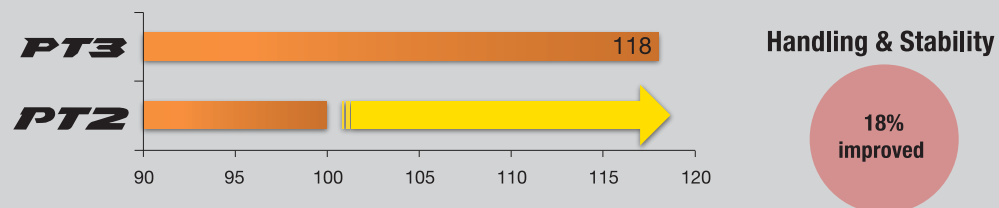

Uniform deflection of sidewall area relaxes concentration of contact pressure at shoulder area when cornering..

PT2 shows concentration of contact pressure at shoulder area. PT3 shows uniform contact pressure to improve direct grip feeling. Adoption of "New Pattern" & "True Circle Profile" improves equality in contact pressure distribution & grip both during straight driving & cornering.

High level of handling & stability

Comparison of Handling & Stability Performance Index

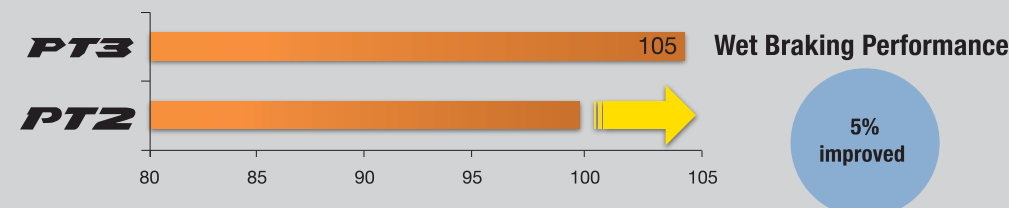

Improved Steering Response

Improved steering response makes lane change smoother

Improved Wet Performance for Safety

Comparison of Wet Braking / Stopping Distance Index

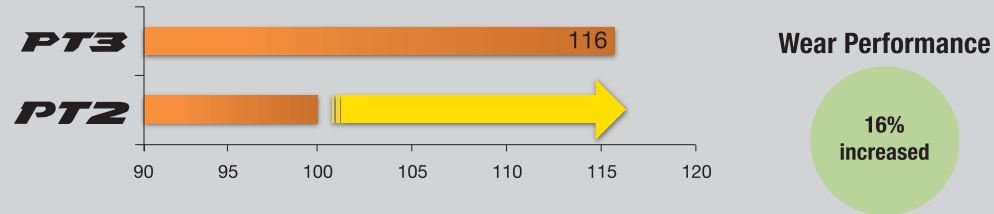

Stopping distance from 100km/h on Wet surface

Improved wet braking performance decreases braking distance of PT3

Long Wear Life

Comparison of Wear Performance Index

Wear performance is improved by 16%.

Size Lineup

RIM	Size	LISS
18"	235/55R18	100V
	285/60R18	116V
	265/60R18	110H
17"	215/60R17	96H
	265/65R17	112H
	245/65R17	107H
	225/65R17	102H
	265/70R17	115S
16"	265/70R16	112H
